The screenshot displays a web-based spreadsheet application. At the top, there is a toolbar with various icons for undo, redo, print, currency, percentage, and text formatting. Below the toolbar is a menu bar with options: Help, Budget, Accounts, Transactions, Report, YearlyReport, and Weekly. The main grid area shows a 'WEEKLY BUDGET REPORT' for the week of 1/7/19 to 1/13/19. The report is divided into sections: 'BUDGET SUMMARY' and 'INCOME'. The 'BUDGET SUMMARY' section shows a total income of 500.00, total expenses of 250.00, and a net difference of (365.20). The 'INCOME' section lists various income sources, with 'Wages & Tips' being the only one with a budget of 500.00 and an actual value of (500.00). The 'EXPENSES' section is partially visible at the bottom.

BUDGET SUMMARY			
	Budget	Actual	Difference
Total Income	500.00	0.00	(500.00)
Total Expenses	250.00	115.20	134.80
NET	250.00	(115.20)	(365.20)

INCOME			
	Budget	Actual	Difference
Dividends	-	-	-
Financial Aid	-	-	-
Gifts Received	-	-	-
Interest Income	-	-	-
Other Income	-	-	-
Refunds/Reimbursements	-	-	-
Rental Income	-	-	-
Wages & Tips	500.00	-	(500.00)
-	-	-	-
Total INCOME	500.00	-	(500.00)

EXPENSES			
	Budget	Actual	Difference
Alimony	-	-	-
Car Insurance	-	-	-

One of the key benefits of VeryUtils Js spreadsheet is its ability to provide a superior user experience, making it an excellent choice for impressing clients with a modern and intuitive data management solution. The plugin is designed to handle complicated data inputs with

ease, offering features like copy and paste, as well as common spreadsheet shortcuts that users are familiar with.

VeryUtils Js spreadsheet is also highly flexible and customizable, allowing developers to tailor its appearance and functionality to meet specific application requirements. Its lightweight and easy-to-use interface, coupled with its responsive controls, make it a top choice for building robust web-based applications.

Moreover, VeryUtils Js spreadsheet is an agnostic platform that works seamlessly with popular modern frameworks like Angular, React, and Vue, providing developers with the flexibility they need to build cutting-edge applications.

The plugin is also designed to simplify the process of creating online spreadsheets, thanks to its quick and easy-to-use source code. Simply copy and paste the source code, and you're ready to start creating amazing online spreadsheets in no time.

VeryUtils Js spreadsheet has following highlight features:

- * Make rich and user-friendly web interfaces and applications
- * Handle complicated data inputs with ease and convenience
- * Copy and paste and common spreadsheet shortcuts
- * Highly flexible and customizable
- * Lightweight and easy to use
- * Responsive controls
- * Powerful **data grid**
- * Agnostic platform. It works well with Angular, React, Vue.
- * Online spreadsheets, easy to use.
- * Copy and paste the source code and quick start creating amazing online spreadsheets.

VeryUtils Js spreadsheet is a versatile and powerful JavaScript **data grid** that offers an unrivaled user experience and flexible customization options. With its exceptional performance and compatibility with popular frameworks, it is an excellent choice for building sophisticated web-based applications.
