Automated online booking & scheduling for WordPress: fully customizable booking form with online payments, notifications, and Google Calendar sync.

https://veryutils.com/php-appointment-scheduler

PHP Appointment Scheduler enables advanced features of online appointment scheduling. With PHP Appointment Scheduler, you can allow your customers to book appointments online easily.

The default configuration of PHP Appointment Scheduler includes:

* Fully-customizable booking form that can be used on any device.

* Filterable, sortable and searchable booking list that you can print or export to CSV.

* Unlimited number of Staff Members with individual working schedules, prices, and ability to manage their profiles and online booking calendar.

* Unlimited number of Services which you can group into categories and set unique colors for easier viewing in PHP Appointment Scheduler Calendar.

* Importable and exportable customer base with unlimited clients list which displays payments stats and internal notes about the client.

* Various templates for customizable Email notifications.

* 2-way synchronization between PHP Appointment Scheduler Calendar and Google Calendar which automatically reflects all updates in PHP Appointment Scheduler in your Google Calendar.

* Built-in analytics with booking statistics.

* WooCommerce compatibility.

* Multi-language support – 12 languages included.

* Six months of 24/7 online customer support.

* Once you purchase and install PHP Appointment Scheduler, you will have PHP Appointment Scheduler activated. You are free to add more advanced functionality to your default configuration with various options for automating your online booking system.

* Full PHP source code available after you make the purchase.

* Works with or without WordPress application.

What is PHP Appointment Scheduler?
PHP Appointment Scheduler is an add-on for WordPress websites. With PHP Appointment Scheduler, your clients can make bookings for service right on your site. No need for time-consuming phone calls or face-to-face meetings.

According to many reviews, PHP Appointment Scheduler is the best booking plugin for WP. It's a unique booking system that is under constant development to stay on top. Our programmers never stop working to satisfy your requests and concerns.

So if you're ready to automate booking on your (or your client's) website, PHP Appointment Scheduler could be the best appointment software you are looking for.
