

Can I search text contents in PDF files which created by EMF/PDF/Image Virtual Printer Driver SDK product? | 1

We are using your "EMF/PDF/Image Virtual Printer Driver SDK for Windows" product now, I could install EMF **printer driver** and able to create the PDF and Image files, everything is fine.

Other questions I have are:

- 1- the resulting pdf can be generated with the selectable text? like ocr processed?
- 2- are the licenses to be purchased to be those of developer? what includes? we are a small company that develop custom processes and we just are 6 developers.

<https://veryutils.com/emf-pdf-image-virtual-printer-driver-sdk>

thank you so much

Customer

Can I search text contents in PDF files which created by EMF/PDF/Image Virtual Printer Driver SDK product? | 2

>>1- the resulting pdf can be generated with the selectable text? like ocr processed?

Yes, the generated PDF files are searchable, you can search text contents in the generated PDF files easily.

>>2- are the licenses to be purchased to be those of developer? what includes? we are a small company that develop custom processes and we just are 6 developers.

Thanks for your message, the Developer License is USD\$1,500.00, it's for one Developer only, if your company has more developers who will use this product, you will need to buy more developer licenses, one license for one developer.

btw, we have also a "PDF Virtual Printer Based on Postscript Printer Driver", this product is

simple but powerful, you may download the trial version of "PDF Virtual Printer Based on Postscript Printer Driver" product from this web page to try,

<https://veryutils.com/pdf-virtual-printer>

"PDF Virtual Printer Based on Postscript Printer Driver" and "EMF/PDF/Image Virtual Printer Driver SDK for Windows" are similar products, but they are using two total different technologies to create **virtual printers**, you may compare them if you have time.

PDF Virtual Printer Based on Postscript Printer Driver,
