Cloud DocSafe is also a PDF DRM Protection solution, with this PDF DRM Protection solution, you can protect PDF documents no matter where they are located:

- Stop unauthorized access
- Stop sharing and distribution

- Strong U.S. government strength encryption, DRM and license control

Protect your PDF files with DRM control:

- Stop printing, allow printing or limit the number of prints.
- Add dynamic watermarks to the viewed and/or printed pages.
- Add expiry to PDF file, make the PDF expire on a specific date, after a number of views, after a number of prints, or after a number of days from opening.
- Allow or stop screen grabbing (even connecting from remote) applications, and prevent screen printing using Windows.
- Log the details for document views and prints.
- Grant access to all authorized users, specific users, or users who have access to publications (such as training courses).
- Limit use to countries and IP locations (for example, use only at a location of an office or company).

Cloud DocSafe supports following basic PDF DRM protection:

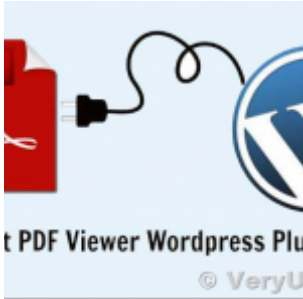

- Stop user editing, copy and paste content.
- Lock the PDF file to a specific device, so it cannot be shared with others.
- Users can enter, manage or delete without a password.
- You can revoke PDFs at any time, no matter where they are located.
- No document printing.
- No document changing.
- No document copying or extraction, Disable accessibility.
- No adding or changing comments or form fields.
- Allows you to add image, text, PDF, line watermarks with opacity to PDF pages.

Cloud DocSafe solution supports Windows, Mac and Linux systems, you can integrate it into your company's document system for Secure Document Distribution. If you are interested in this solution, please feel free to let us know, we are glad to assist you asap.
