

**VeryUtils** PDF to Excel Converter is a software tool designed to assist users in converting PDF documents to Microsoft Excel format. It is a Windows-based offline software that requires no installation of Adobe Acrobat or Microsoft Excel. The converter preserves table formats and columns during the conversion process, ensuring that the resulting Excel spreadsheet maintains the same structure as the original PDF, facilitating easier data manipulation and analysis within the tables.

The PDF to Excel Converter features a user-friendly interface that is simple and intuitive to use. Users can drag and drop PDFs into the interface for quick conversion and also enjoy batch conversion capabilities, allowing multiple PDF files to be converted into Excel

spreadsheets simultaneously.

Operating entirely offline, the PDF to Excel Converter eliminates the need to upload PDF files to external servers for conversion. Instead, the conversion process occurs locally on the user's system, independent of an internet connection. This offers several benefits, including enhanced security and privacy, as well as faster conversion times.

Highlighted features of the PDF to Excel Converter include:

- Offline conversion, eliminating the need to send PDF files to any server for conversion.
- Standalone software that does not require Adobe Acrobat or MS Excel applications.
- Offline conversion of PDFs to Excel spreadsheets.

- Preservation of all table formatting.
- Retention of rows, columns, and data integrity.
- Easy-to-use spreadsheet editing features.
- High-speed batch file conversion.
- Batch conversion of multiple PDF files to XLS, XLSX, CSV formats.
- Compatibility with Windows XP, 2000, 2003, Vista, 7, 9, 10, 11, and later systems.
- Support for both 32-bit and 64-bit systems.
- Automatic table recognition and tabular analysis support.
- Support for multiple-page and batch conversion.
- Conversion of tables, forms, invoices, and more.

The converter ensures that table and cell formatting are retained, saving users from manually adjusting layouts and data. Additionally, it includes a form extraction manager to automatically extract form data and organize it into structured columns in the output, streamlining data extraction processes.
