

I am using your PDFStamp Command Line and PDFStamp GUI versions. Your PDFStamp Command Line does able to convert from white background color to transparent background color perfectly. However, PDFStamp GUI software doesn't support this feature.

Is the "convert white background color to transparent background color" possible with the GUI version of VeryPDF PDF Stamp software?

Can the stamp be protected or made so that it is not possible to copy and paste it into another application or document? I want to use it to add a signature image to drawings and do not want people to be able to copy that signature.

Regards

Customer

I have found the encryption options. I would like encryption 16, deny copy of contents. I do not want to enter password on file open. Is that possible?

Thanks for the help thus far.

Customer

Thanks for your message, please don't set "-openpwd" option in the command line, the encrypted PDF file will not prompt the open password, for example,

```
pdfstamp.exe -pdf D:\example.pdf -o D:\out.pdf -AI D:\downloads\logo.jpg -P9 -r45 -  
transparentcolor#FFFFFF -opacity50 -encrypt -ownerpwd=123456 -keylen=2 -encryption=16
```

VeryUtils

This is my line of code:

```
pdfstamp.exe -pdf "gba example.pdf" -o "0gba.pdf" -AI gbalogo.jpg -W18 -H17.5 -P6 -MLR117  
-MTB-39 -encrypt -ownerpwd=123456 -keylen=2 -encryption=16
```

I still get prompted for password on file open.

Please help.

Customer

Sorry for this problem, we have fixed this problem today, please download the new version from this URL to try again,

<https://veryutils.com/pdf-stamper-command-line>

Your command line works fine in the new version of pdfstamp.exe application.

VeryUtils

Perfect. Thank you.

One last question.

Which file/s do I deploy on my server? Is it only the pdfstamp.exe?

Customer

Thanks for your message, you can deploy following files to your server,

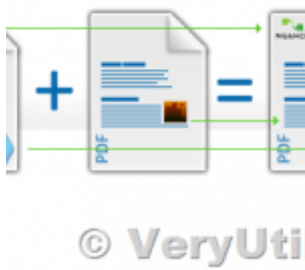

pdfstamp.exe
imgconv.exe
cimage.dll
cximagecrt.dll
pdfplayerdll.dll
pdfsdk.dll
pdftoolsdk.dll

You can call pdfstamp.exe from your PHP, ASP, C#, VB.NET, etc. program languages to stamp PDF files easily.
