* Administrators can view the print history of each user.

- * Track the types of jobs printed, e.g. user name, computer name, document name, etc..
- * Filters make it easy to locate specific print jobs.
- * Export data as HTML, CSV, MS Excel, etc. formats.
- * View captured print contents in PDF format.

User level printing may also be presented as the summary of all users in a group, office or department.

Printer Level Tracking

Tracking by printer helps to understand how much printers are used, by who and when. This assists decisions such as purchasing a new printer or re-allocating existing printers to achieve more efficient usage.

- * Compare and analyze printer usage
- * Determine which printers are used most
- * See detailed logs for each printer
- * Visual charts help to understand utilization
