I'm using your Virtual PDF Printer to convert my documents to PNG Image files with trimming currently. However, I encountered a problem recently.

open issue: settings disappear from registry in my system,

e.g. like to set,

AutomaticDirectory
AutomaticOutput
AutoTrimImage

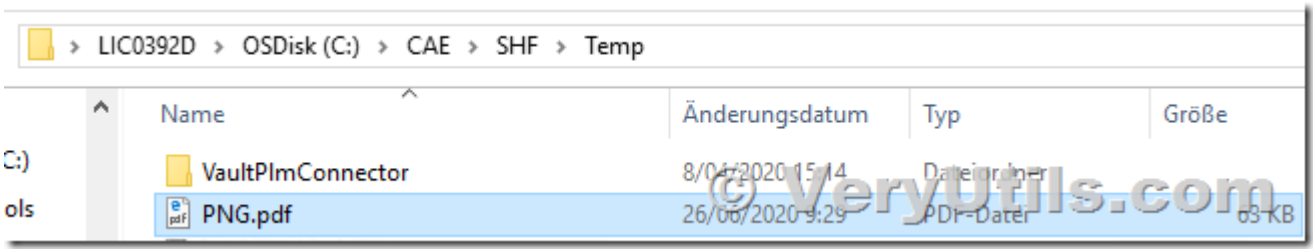
Print result, is not a trimmed png, it's a un-trimmed pdf file,



Please support.

Customer

Thanks for your message, I'm by following steps to test this issue in my system,

1. Set following values into registry,

HKEY_CURRENT_USER\Software\e-pdfconverter\pdfcreator
AutomaticDirectory=D:\downloads\out.png ; REG_SZ Type
AutomaticOutput=1 ; REG_DWORD Type
AutomaticValue=2; REG_DWORD Type
AutoTrimImage=1; REG_DWORD Type
xResolution=300; REG_DWORD Type
yResolution=300; REG_DWORD Type

2. Open "C:\Program Files (x86)\e-PDF Converter and Creator v2.2\config.ini" file in notepad application with administrator privilege, set following options into it,

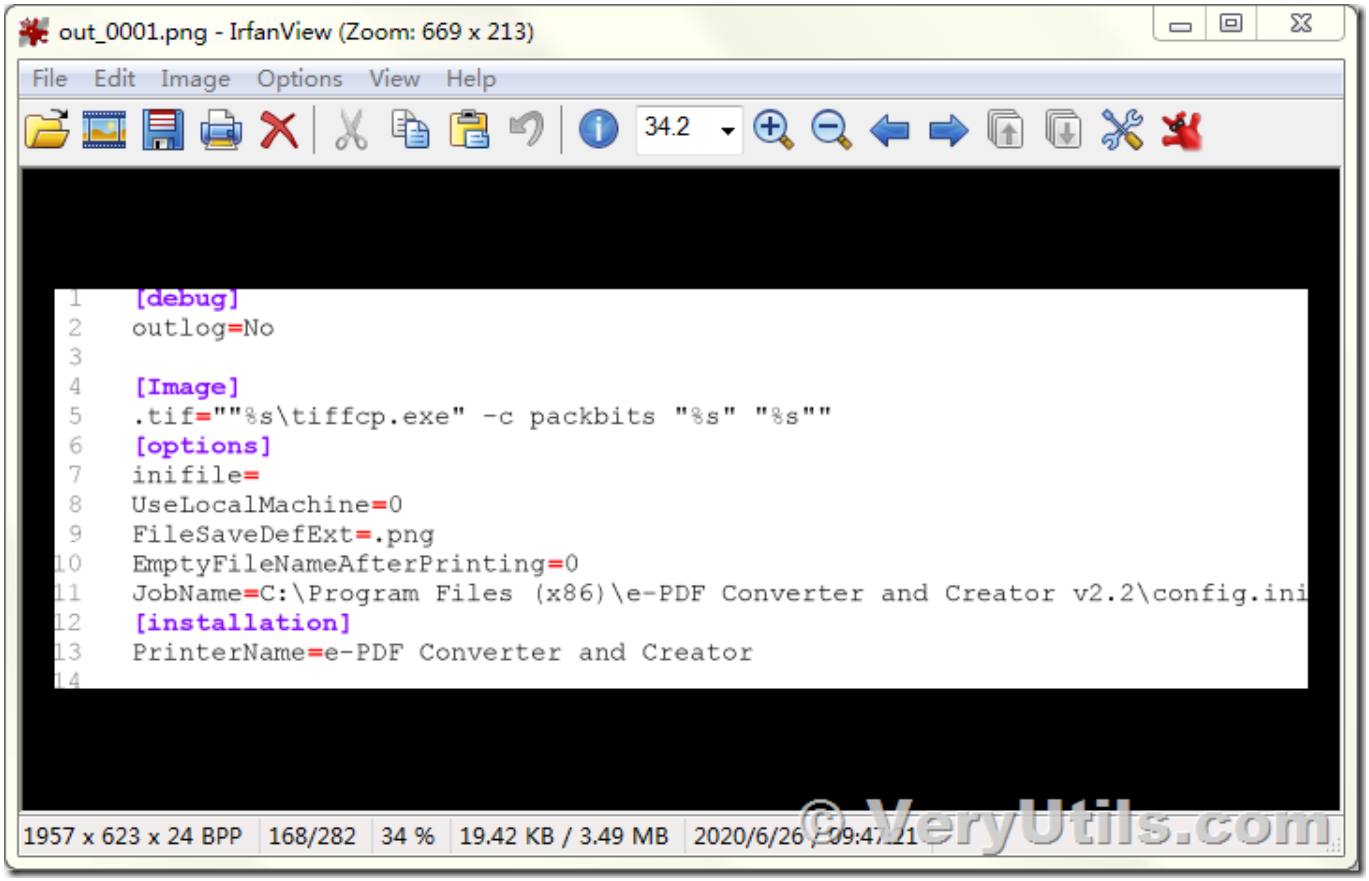
[options]
UseLocalMachine=0
FileSaveDefExt=.png
EmptyFileNameAfterPrinting=0

3. Delete following cache file from your system if it exists,

"C:\Users\Your-Name\AppData\Local\VirtualStore\Program Files (x86)\e-PDF Converter and Creator v2.2\config.ini"

4. Print a document to "e-PDF Converter and Creator" printer, you will get a trimmed PNG file properly, the values in registry will be kept also.

The following is a screenshot for trimmed PNG image file,



"Image Generation" and "Trim Image" functions have been integrated into PDF Virtual Printer product, you may download the trial version of PDF Virtual Printer from this web page to try, if you encounter any problem with this product, please feel free to let us know, we are glad to assist you asap,
