Hello Again,

Do you have a trial version of the [html5 flipbook](#) conversion software?

If so, kindly share the download link.

Is there a trial version of the PDF to HTML5 Flipbook maker?

If so, kindly share the link for trial before I make the purchase.

Customer

Hello,

Thanks - I got up to that point ( see attached). However, which is the installation icon?

I am taking about the software for conversion.

If it is a cloud based conversion, then share the URL as I think what you have shared is a sample output which can be uploaded onto the server.

I am looking for the conversion software or if cloud, the respective URL link.

Hello,

You can run a CMD window, then you can run following command line in this CMD window to convert from PDF file to Flipbook files easily,

```
pdf2flip.exe -$ XXXX-XXXX-XXXX-XXXX D:\in.pdf D:\out\
```

You can also call pdf2flip.exe from your PHP and C# source code, when a user upload a PDF file, your application will call pdf2flip.exe to convert this PDF file to Flipbook files quickly.

btw, after you purchase the software, I can also provide a PHP example to you, you can use this PHP to call pdf2flip.exe to convert user uploaded PDF files to HTML5 Flipbook files quickly.

On this web page, you can click "Preview" tab to test a demo Flipbook online,

Hello Frank,

My expectation was some exe application which I install on my laptop , import the pdf file then it generated a package which I upload onto my server.

Is that what I will get when I purchase?

Customer

Hello,

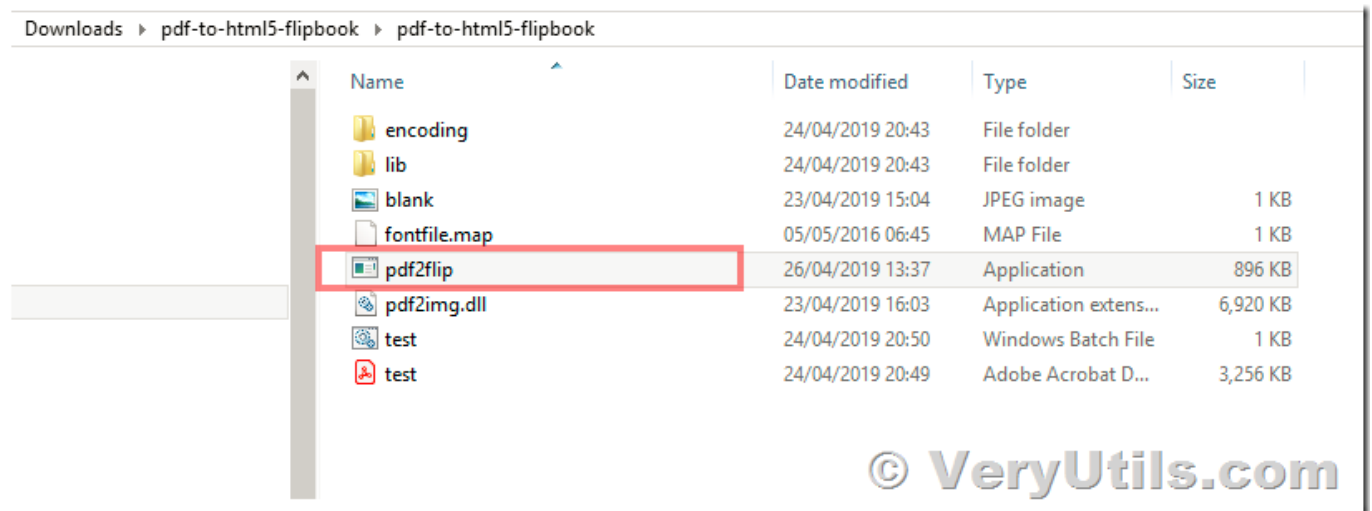

And the Trial version of pdf2flip.exe is what am looking for so I try the demo before I purchase.

Where is the link to download pdf2flip.exe?

You can place your own watermark during the Trial period till I purchase then have the

licence so no need of a watermark.
