

I wish to CAPTURE the printout data and create an electronic PDF for storage on a local (different) computer INSTEAD of printing paper output | 1

I have medical equipment which ARE NOT Windows based. They have printer output to the following printers... ASCII only, I believe.

- \*1- Zeiss HFA 750i with an HP LaserJet 1200 printer attached to it.(Serial Printer cable only)\*
- \*2- Zeiss HFA 740i with a Brother HL-53 laser printer attached to it. (serial Printer cable only)\*
- \*3-Zeiss IOLMASTER 500 with a Brother \* HL-L2370DW laser printer attached to it. (standard USB to printer cable)

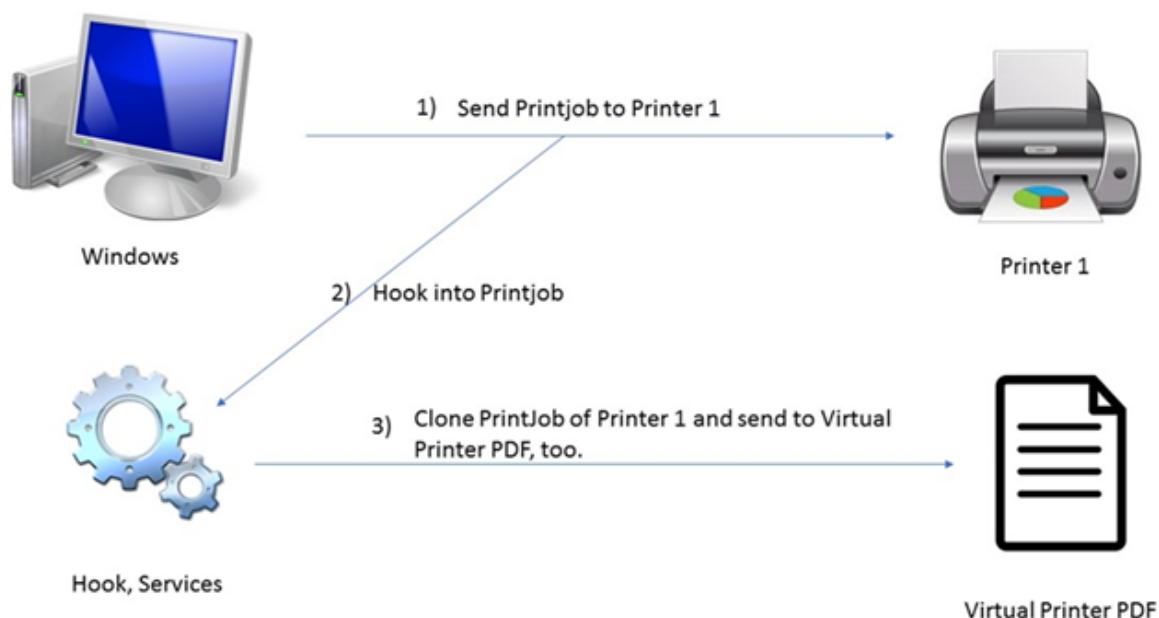

I wish to CAPTURE the printout data and create an electronic PDF for storage on a local (different) computer INSTEAD of printing paper output.

Does your software do this?

Please let me know..
