

The **VeryUtils** JavaScript Barcode Scanner SDK is a powerful, web-based solution designed to help developers easily integrate barcode scanning capabilities into their web and **mobile applications**. This versatile SDK enables seamless barcode detection and decoding through JavaScript, making it a perfect tool for modern web and mobile platforms. You can test and evaluate this SDK directly on its **official web page**.

Key Features of **VeryUtils** JavaScript Barcode Scanner SDK

- **Cross-Platform Compatibility:** The SDK works on both web and **mobile applications**, enabling barcode scanning directly through the browser, without the need for additional software or apps.
- **Real-Time Barcode Scanning:** The SDK uses the device's camera for real-time barcode detection and scanning, delivering fast and accurate results.
- **Customizable:** You can extend and customize the SDK to support additional barcode symbologies, tailor it to your specific needs, or enhance its performance in custom-built applications.
- **Easy Integration:** With a simple API and detailed documentation, the SDK can be quickly and easily integrated into any web or mobile application.

Supported Symbologies and Barcodes

The **VeryUtils** JavaScript Barcode Scanner SDK supports a wide range of barcode symbologies, making it a versatile solution for various industries and use cases:

1D LINEAR BARCODES:

- Code 11, Code 25, Code 39 (including Extended)
- Code 93, Code 128, UCC 128
- 2 of 5 Interleaved, IATA 2 of 5, Industrial 2 of 5
- Codabar, Patch Code, Pharmacode
- EAN-8, EAN-13, UPC-A, UPC-E
- Add 2, Add 5, MSI Plessey
- UPC EAN Extension, GS1 DataBar (RSS-14, Limited, Expanded, Expanded Stacked)

2D BARCODES:

- Aztec, GS1 Composite
- MAXICODE, PDF417 (including Compact)
- Data Matrix, QR Code (including Micro QR Code)

POSTAL CODES:

- Japan Post, Royal Mail, Royal TNT Post
- PostNet, Planet, RM4SCC
- Australia Post, USPS Intelligent Mail Barcode (IMB)

For businesses with specific barcode scanning needs, VeryUtils offers [custom-built versions](#) that can support even more symbologies.

Why Choose VeryUtils JavaScript Barcode Scanner SDK?

- **Wide Barcode Support:** The SDK supports a vast array of 1D and 2D barcodes, making it applicable to various industries including retail, logistics, healthcare, and more.
- **Mobile-Friendly:** Optimized for mobile applications, the SDK allows users to scan barcodes using their smartphone cameras directly in web-based applications.
- **High Performance:** With accurate real-time scanning, the SDK delivers high-speed [barcode recognition](#) to enhance user experience and operational efficiency.
- **No App Downloads Needed:** As a fully browser-based solution, users don't need to download any additional software or apps, simplifying the deployment and user adoption processes.

How to Get Started

Getting started with the VeryUtils JavaScript Barcode Scanner SDK is easy! Simply visit the [evaluation page](#) to try out the SDK in action. With clear documentation and flexible customization options, you can integrate this [barcode scanner](#) SDK into your projects in no time.

Make your web and mobile applications barcode-ready with [VeryUtils JavaScript Barcode Scanner SDK](#). Test it today and take advantage of fast, accurate barcode scanning capabilities!
