RTF to PDF conversion is a popular function of VeryUtils Document Converter. This utility provides the most accurate conversion of document contents and layout from RTF to PDF format.

RTF to PDF Converter Command Line is a command line application to convert from RTF files to PDF files, it can be called from any .NET applications, either ASP.NET web sites or Windows Forms applications, to add rtf to PDF conversion capabilities to your application.

https://veryutils.com/doc-to-any-converter-command-line

With the RTF to PDF Converter Command Line software, you can easily convert RTF files to PDF files, you can also set security settings, open password, owner password etc. options to the generated PDF files. The integration is extremely easy and no additional installation is necessary in order to get started. It's just a command line application, you can call it from your C# code using Process.Start() function, for example,

```
------------------------------------
using System.Diagnostics;

class Program
{
    static void Main()
```

```csharp
    {
        LaunchCommandLineApp();
    }

    static void LaunchCommandLineApp()
    {
        // Part 1: use ProcessStartInfo class.
        ProcessStartInfo startInfo = new ProcessStartInfo();
        startInfo.CreateNoWindow = false;
        startInfo.UseShellExecute = false;
        startInfo.FileName = "D:\\VeryUtils\\doc2any.exe";
        startInfo.WindowStyle = ProcessWindowStyle.Hidden;

        // Part 2: set arguments.
        startInfo.Arguments = "D:\\test.rtf D:\\out.pdf";

        try
        {
            // Part 3: start with the info we specified.
            // ... Call WaitForExit.
            using (Process exeProcess = Process.Start(startInfo))
            {
                exeProcess.WaitForExit();
            }
        }
        catch
        {
            // Log error.
        }
    }
}
```
