

A new era of dining in the age of coronavirus is here. Say goodbye to physical menus and say hello to QR Codes!

<https://veryutils.com/qr-code-menu>

Below are some inspirations on where you can print your new QR Code menu in your restaurant or bar so that it can be scanned easily by customers.

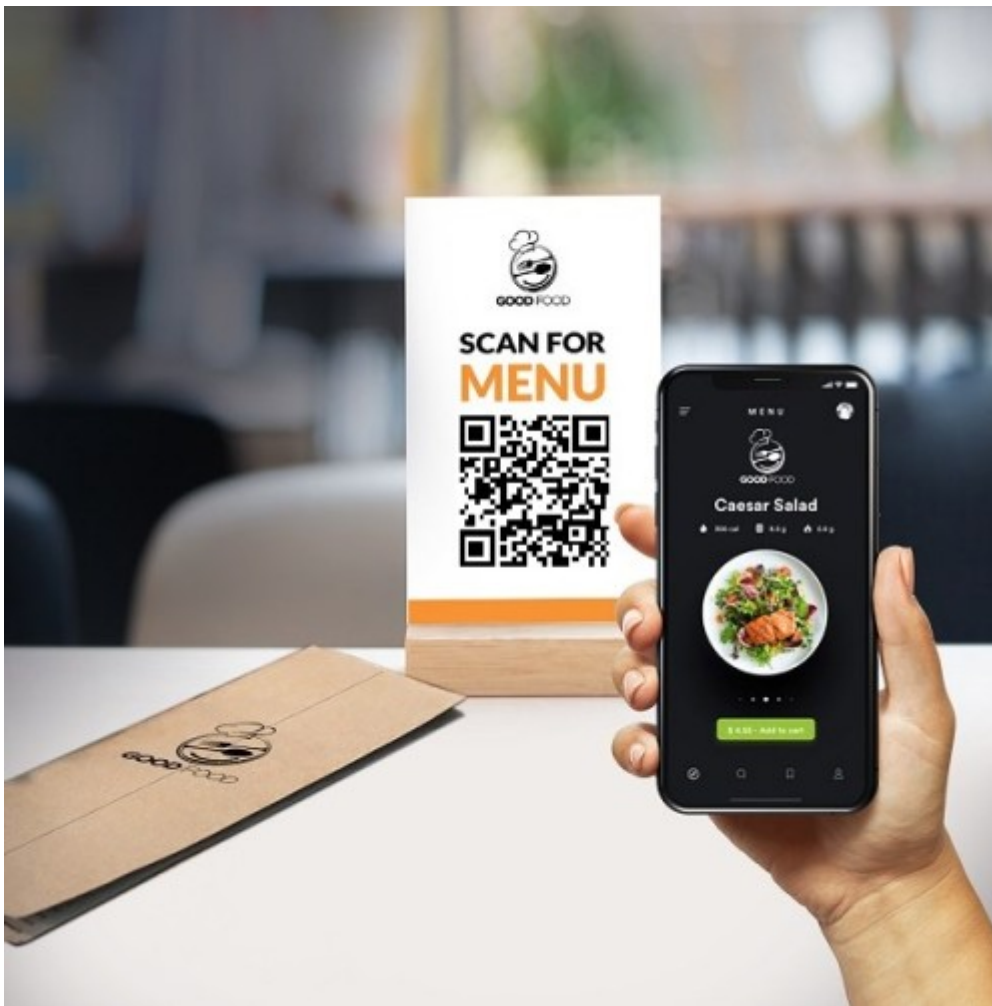

VeryUtils QR Code Menu Solution for Restaurants, Bars, Hotels, etc., Build a contactless QR Menu for your restaurant today!

Why should you need a QR Code menu?

VeryUtils QR menu is the perfect tool for restaurants, cafes, shops and other business types to provide their customers with an attractive QR menu, **digital menu** and help them order

with a few simple clicks from restaurant menu, cafe menu. Amplify your reach, inspire your audience, cut costs and save time all by using this single tool.

VeryUtils QR Menu Advantages:

- * Multifunctional and user-friendly interface with various tools for adding, editing and deleting products.
- * Making an order by just a few clicks.
- * Automatic translation of menu on over 25 languages.
- * Detailed information and photo of each product.
- * Easily managing orders from the admin portal.
- * No need to download any App.

Instant updates

Edit your menu at anytime. Our dynamic QR Code allows for real-time price changes, menu item availability or substitutions. So your customers will always have access to an accurate and current menu.

View from any device

Keep customers coming back! Customers can view your menu from the safety of their personal devices. Our adaptable display ensures clear and focused visibility from any mobile devices. And as an added bonus - your also saving on printing and designing costs!

Increase sales and entice your customers

You've heard it before: 'people eat with their eyes', so why not add mouth-watering pictures of your food to your **digital menu**. Build lasting customer relationships, while also increasing profits by up to 30%!

Dynamic user experience

Create and update your **digital menu** from anywhere and at anytime with powerful Cloud-based efficiency. The intuitive, user-friendly interface helps you set-up with ease, so there's no technical knowledge required.

Help customers find you online

Competition in the restaurant industry has never been fiercer and that's why it's important that you are present in the public eye. Show-off your best marketing asset across all digital platforms and drive customers to your restaurant!

How can you show off your QR Code?

* Restaurant door or window.

--- Place the QR code on your restaurant window so passerby can access your menu easily and your dine-in guests can also view the menu before they enter.

* Table tents.

--- Print table tents that display your QR code menu, so customers can scan the QR code to view your menu on their mobile devices.

* Food packaging.

--- Display your QR code on food packaging so customers can view your menu at their convenience. This is a great way to boost customer retention!

* Drive-through.

--- Customers can scan the QR code to view your menu on their mobile device before reaching the drive-through counter. This can help you serve more customers and reduce wait-time.

* Delivery vehicles.

--- A branded vehicle announces the presence of your business as well as its services or products, wherever the driver goes. So simply pop on your QR code menu too so potential customers can view your menu!

* Social media, emails or even a widget on your website.

--- Add the menu link to your website so visitors can view your menu before dining. You can also share it on your social media pages and even shoot an email off to your fan-base!

Just order and make your QR Menu today,
