VeryUtils Print Job Tracker can be installed on a single computer and you will be able to track all print jobs from this computer. This Print Job Tracker software allows you to monitor all print activity, control who is printing, how much is being printed, and identify the cost of printing across your organization. This comprehensive print tracking solution has proven beneficial for thousands of businesses and educational institutions to understand and manage print costs and reduce unwanted costs.

Capture Print Jobs, Convert them to PDF files, Save them to Cloud Database

© VeryUtils.com

The print log contains: time of print, the name of the user who printed, the total number of pages, document names and titles, other job attributes such as paper size, color mode, etc..

The software is designed to provide centralized print management capabilities for businesses and educational institutions through advanced print control, monitoring, counting, quotas and auditing capabilities. The VeryUtils Print Job Tracker can be used with any brand and type of printer making it global, helping to track and control print jobs sent from Windows clients and eliminate unnecessary paper waste.

VeryUtils Print Job Tracker highlight features:

- Support all version of Window systems.
- Support for all types of printing (Windows print server, direct IP printer and USB printer attached to the workstation).
- Support for all brands of printers and plotters (HP, Brother, Canon, Epson, Oki, Ricoh, Konica, Xerox and etc.).
- No need to have a Windows print server in order to track print jobs.
- Management and monitoring of unlimited printers and print jobs from a single administration console.
- Very easy to install and use.

Generated printing report can be viewed from your web browser. This print Tracker software helps you keep track of printed jobs, effectively monitoring all printer activity.

Thousands of pieces of paper cross your desk every day. You shouldn't have to worry about thousands of others from your printer! Business and educational customers use VeryUtils Print Job Tracker as it allows them to track user printer usage and reduce printing costs without having to spend hours working their way through even more paperwork.
