🗺 Main Features

Map Customization

- Add Any Custom Map: Use SVG, JPG, PNG files, or choose from a built-in country map.

- Zoom and Pan: Enable zoom and pan functionality or fullscreen mode for better visibility.
- Clickable Locations: Add interactive, clickable locations to your map.
- Multi-floor Support: Incorporate multiple files to enable support for maps with several floors or levels.
- Filterable Directory: Enable and customize a directory that users can filter through.
- CSV Integration: Easily import and export data from spreadsheets to manage your map data efficiently.
- User-friendly Admin Interface: Manage your map with an intuitive and responsive admin interface.

The VeryUtils Custom Interactive Map HTML5 Plugin is an all-in-one custom mapping solution that is compatible with desktop computers, mobile devices, and even touch kiosks, making it a versatile tool for various applications.

🗺 Use Cases

The VeryUtils Custom Interactive Map HTML5 Plugin is ideal for projects with a moderate number of points of interest and those that require unique and creative designs. While tile-based map services are better for highly detailed maps that need street-level zoom, this plugin excels in projects that prioritize customizability and aesthetic appeal.

- Buildings/Complexes: Perfect for malls, resorts, hospitals, schools, and airports.
- Real Estate: Ideal for showcasing lots, apartments, and other properties.
- Events: Excellent for expos, festivals, and fairs, providing an interactive experience for attendees.
- Geographic Regions: Suitable for creating detailed maps of the world, countries, regions, or cities.

🗺 Built-in Maps

The VeryUtils Custom Interactive Map HTML5 Plugin includes a comprehensive set of built-in

maps that you can configure within minutes. These maps cover various regions and countries around the world, including:
