

VeryUtils Email Marketing Application is an open-source, self-hosted software tool written in PHP. It allows you to send high-volume marketing emails through your own server or other email service providers (SMTP). With **VeryUtils** Email Marketing, you can have full control over your **email marketing** system without the need for expensive services like Mailchimp and ActiveCampaign. The application can be configured to **send emails** through your own SMTP servers or integrate with other email service providers like Mailgun, SendGrid, SparkPost, ElasticEmail, and Amazon SES. Additionally, the VeryUtils Email Marketing Script is designed as a SaaS platform, enabling you to manage and sell your email sending services to others.

VeryUtils Email Marketing Application is a **bulk email sender** tool that offers a range of advanced features to help you send effective and personalized **email campaigns**. With VeryUtils Email Marketing Application, you can easily import your email lists from text files and create customized messages with or without attachments.

One of the standout features of VeryUtils Email Marketing Application is its SMTP management tools, which include unlimited SMTP servers. VeryUtils Email Marketing Application supports SMTP rotation, which enables you to send unlimited emails from the

same campaign using different SMTP servers and different email accounts. This can be particularly useful if you need to send large volumes of emails or if you want to ensure that your emails are delivered even if one server experiences issues.

Rotating SMTP servers without any limits, send your campaign using as many **smtp servers** as you need.

ex. 3 smtp's will work that way:

1 mail -> 1 smtp

2 mail -> 2 smtp

3 mail -> 3 smtp

4 mail -> 1 smtp

5 mail -> 2 smtp

etc. ...

till end of your campaign.

Lifetime license. Use as long as you wish:

- * All features available all the time.
- * No fees.
- * No limits.
- * No restrictions.
- * No additional payment.
- * No subscription payment.

VeryUtils Email Marketing Application is a powerful and versatile tool that allows you to send an unlimited number of **email campaigns** to an unlimited number of subscribers. Whether you're handling newsletters for multiple websites or sending personalized email campaigns to your own list of subscribers, VeryUtils Email Marketing Application has you covered. And best of all, it allows you to do all of this without incurring any per-email costs. So, it's a great choice for anyone looking to send high-quality email campaigns without breaking the bank.
