The screenshot displays the 'Easy FTP' web interface on a blue background. On the left, a list of features is shown with icons: 'User Authentication based system with PHP', 'Connect to any FTP Client', 'Manage Folders and Files', 'Upload files using user friendly multiple file uploaders.', 'Responsive, you can upload files using your mobile device to FTP', 'Help documentation is included', and 'Easy to implement'. On the right, a white panel titled 'Folders' contains an 'Upload Files' button and a list of folders: aaa, abc, am, deneme, dfsdf, documentos, eee, fdfsfd, ffff, kkk, koiu, local, test, and test123. A circular overlay on the folder list shows a folder icon with surrounding action icons: a green plus, a blue down arrow, a red minus, a blue up arrow, a magnifying glass, and a gear. The bottom right corner features the '© VeryUtils.com' watermark.

PHP FTP Client makes it easy to move files between any combination of FTP servers, PC folders, Android mobile devices and remote PCs. Imagine the possibilities of transferring files between any combinations of devices, all controlled from your computer.
