Key Features

Interactive Map of Italy - Clickable Regions / Cities
The interactive template of the map of Italy provides an easy way to install and customize a professional-looking interactive map. It includes 20 clickable regions, each of which can be linked to any webpage. Additionally, you can add an unlimited number of clickable pins anywhere on the map, offering even more customization and interaction options.

Main Features

- One-time Purchase
  No annual or subscription fees are required. A one-time purchase grants you full access

to the map and its features.

- SVG-Based, Responsive, and Fully Resizable

  The map is based on SVG (Scalable Vector Graphics), ensuring high-quality visuals that are responsive and fully resizable. It works perfectly on both desktop and mobile devices, including smartphones.

- Customizable Regions

  Each region on the map can be customized independently. You can modify colors, links, hover information, and activation status to match your specific needs.

- Customizable Pins

  Pins can be added anywhere on the map and customized independently. You can choose the shape (circle or square), size, position, colors, links, and hover information for each pin.

- Linking and Modal Windows

  You can link each region or pin to any webpage or open a modal window. Note that the modal window option works only with the Bootstrap framework, so ensure compatibility with your website template or WordPress theme.

- Easy Customization

  The map is easily customized through simple JavaScript files, with no JavaScript knowledge required. This makes it accessible for users of all technical skill levels.

- Comprehensive Package

  The map package consists of HTML, CSS, and JS files. It also includes an installable WordPress plugin zip file, allowing for manual editing of simple JS files for customization.

- Multiple Map Instances

  You can embed as many maps as you want on the same website across different pages. For WordPress, you can install up to three instances of the map plugin and use the shortcode as many times as needed on different pages.

- SEO Friendly

  The map has a small file size, ensuring fast loading speeds and SEO friendliness.

- Full Documentation

  The package includes full documentation with an interactive X, Y coordinates guide to

help you place pins accurately.

List of Clickable Regions in the Map of Italy
Each region can be customized independently in terms of colors, links, hover information, and more. The regions include:

1. Abruzzo
2. Valle d'Aosta
3. Puglia
4. Basilicata
5. Calabria
6. Campania
7. Emilia-Romagna
8. Friuli-Venezia Giulia
9. Lazio
10. Liguria
