

JavaScript UI control for thumbnail viewing in web browser with HTML5 support. The **VeryUtils** Thumbnail Viewer JavaScript Source Code is a JavaScript control for viewing thumbnails in any HTML5 compatible web browser. The control can be created on a client-side of web application. The control doesn't require a web service for getting information about image and rendering a thumbnail. It can be used on both client and server side applications. For example, you can embed this JavaScript Image Thumbnail Viewer into your C/C++, Delphi, Xcode, C#, VB.NET, ASP.NET, Java, Javascript, PHP, Python, etc. program languages to view images or PDF files or documents in thumbnail mode easily.

Thumbnail Viewer JavaScript Control can be found on this web page,

<https://veryutils.com/photo-slideshow-and-thumbnail-viewer-javascript-source-code>

You may open following web page in a web browser to test its capability,

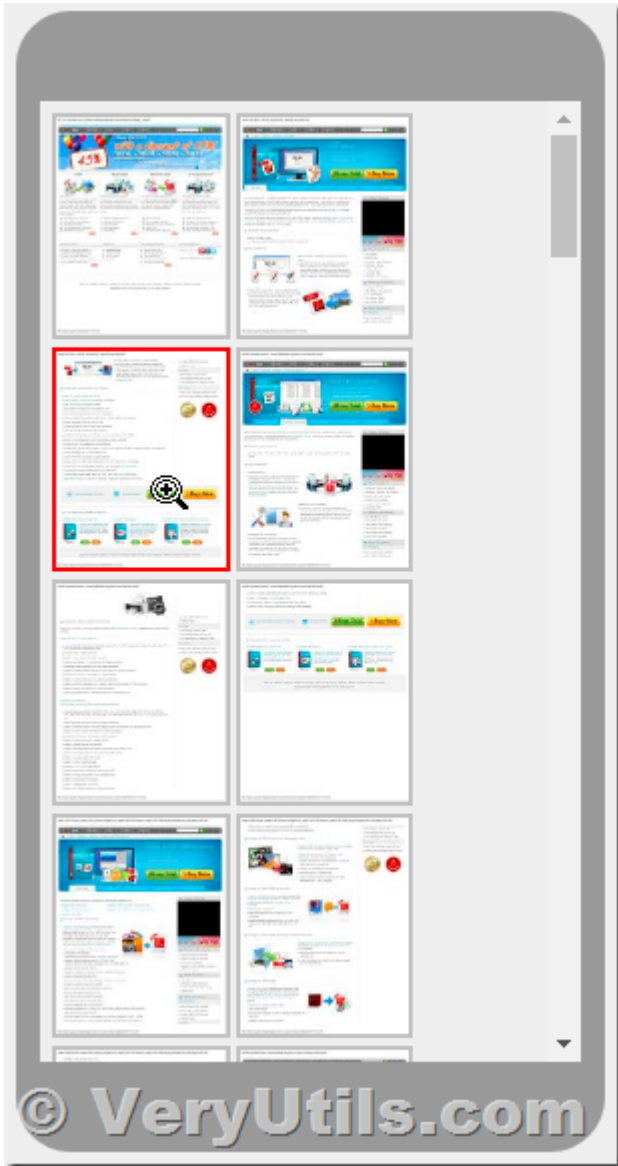

VeryUtils JavaScript Thumbnail Viewer is an image, media and gallery viewer written in JavaScript. These are some of its advantages:

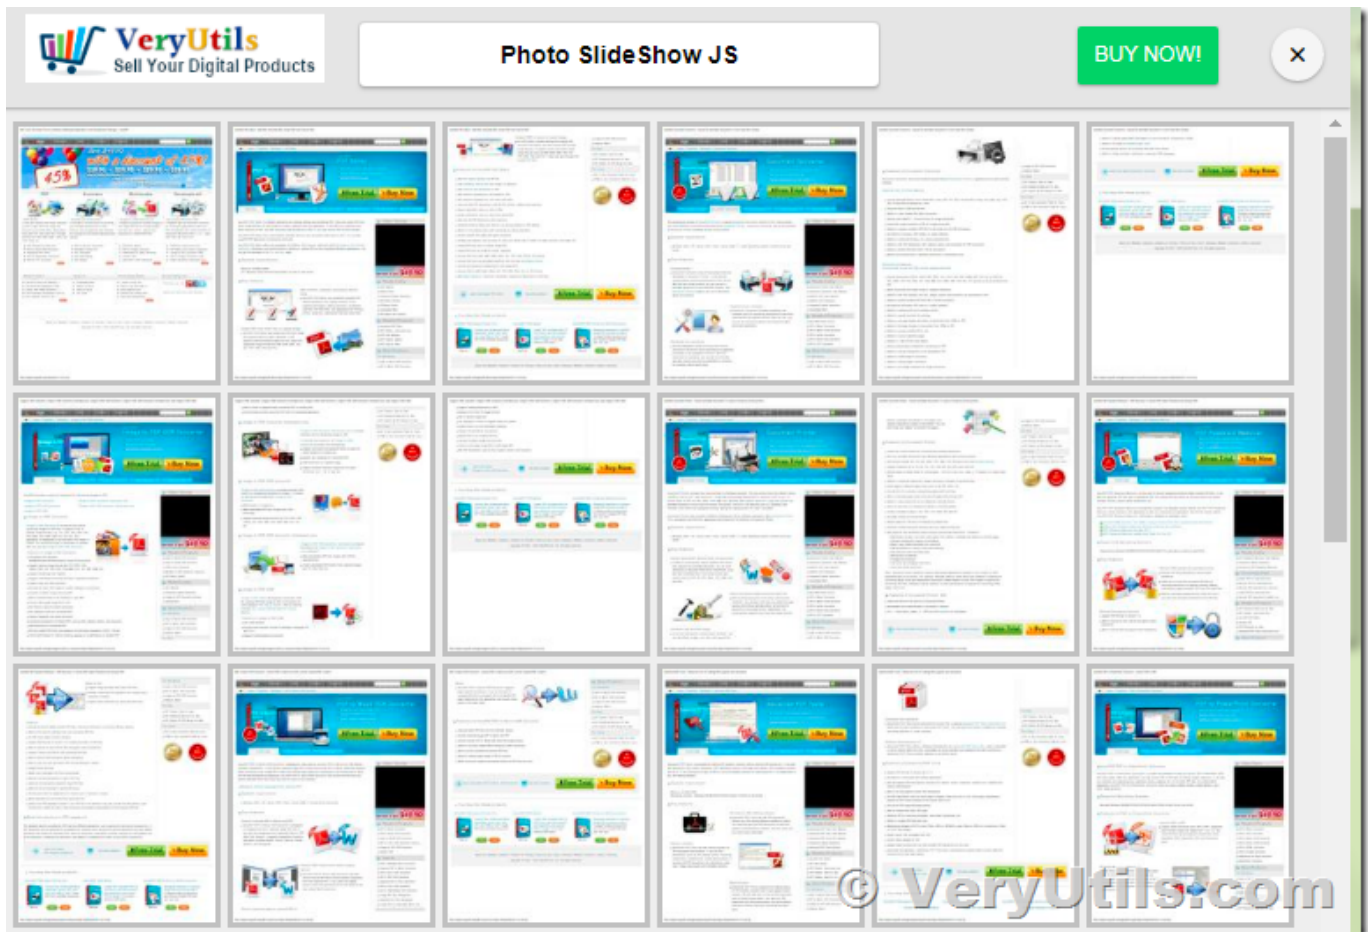

- Quick and elegant looking.
- No plugins like Flash or Java required.
- Popup blockers are no problem. The content opens within the active browser window.
- Single click. After opening the image or HTML popup, the user can scroll further down or leave the page without closing it.
- Lots of configuration options and scalability without compromising on simplicity.
- A component system lets you strip away unused features down to a file size of 10kB.
- Outstanding, unconditional and free user support for both commercial and non-commercial users.

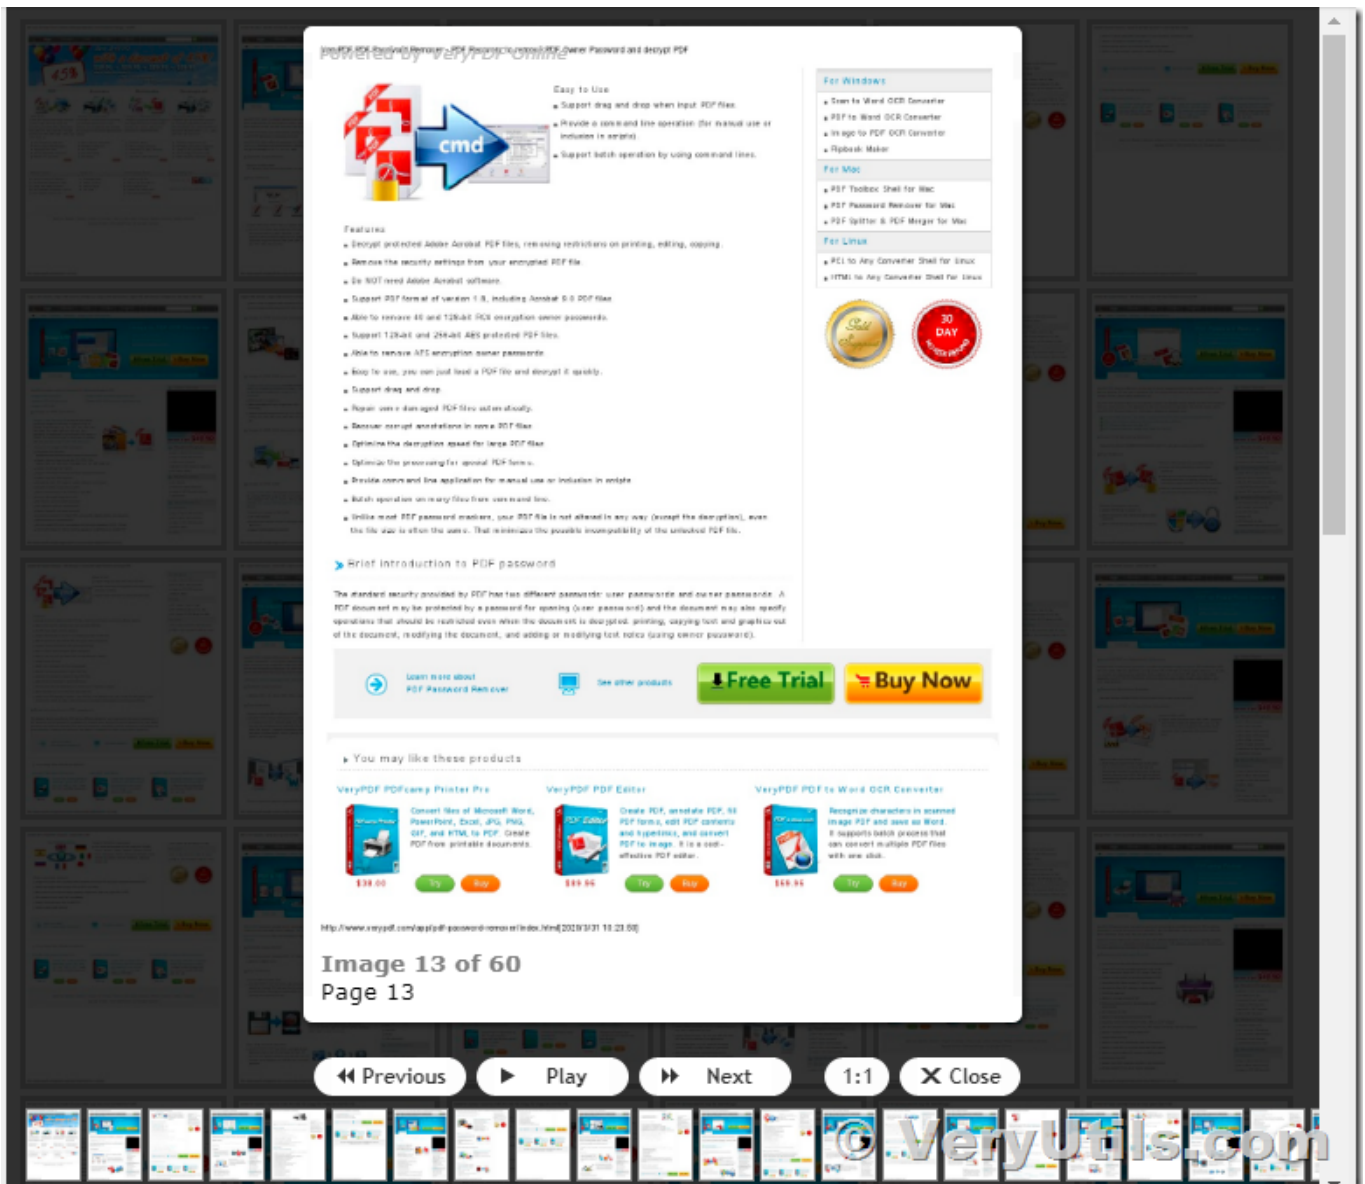

- Compatibility and safe degrading. If the user has disabled JavaScript or is using an old browser, the browser redirects directly to the image itself or to a given HTML page.
- Source code included after purchase.

Screenshots for **VeryUtils** JavaScript Image Thumbnail Viewer,

Compatibility - tested with:

- IE 5.5 - 9.0, Works
- Firefox 1.5+, Works
- Opera 8.5+, Works
- Netscape 7.2, Works
- Safari 2.0+ on Mac, 3.0+ on Windows, Works
- Google Chrome, Works

- Konqueror 3.5, Works

Supported browsers and devices

The script has been developed to work on every device, which means that basic functionality should be supported everywhere:

- Desktop Chrome, Firefox, Safari, Opera and IE 8 and above
- Android 2.3.7+ (2.1 not tested yet): default browser, Chrome, Firefox (latest), Dolphin (latest)
iOS 5+
- Windows Phone 7+: default browser (touch gestures are supported from 8+)
- BlackBerry OS 10+: default browser (older versions not tested yet)
- Devices with multiple input methods (Surface, Chromebook Pixel, etc.)

If you discover a problem on your device, please feel free to contact us, and provide as much detail as possible (OS name and version, browser name and version, screenshot or screencast, etc.).
