What is it?

Professional CSV File Editor to edit, view and read, sort, and export all your data in no time.

Online CSV Editor is a powerful CSV file editor. It can open any format of separated text, including the standard comma and tab separated files (CSV and TSV), and allows total control over their content.

With a clean and neat interface the online CSV Editor is also ideal to simply view and read CSV, or any text delimited, files.

Online CSV Editor is the ultimate online CSV editor, whether you need to edit a CSV file, change some data, or export to another format, this is the ideal solution for anyone who regularly works with CSV files.

Online CSV Editor key features:

- * CRUD (create, read, update and delete) CVS file data source
- * Multiple delimiters supported (CSV, DSV, TSV, PSV etc.)
- * Multiple line endings supported (CRLF or LF)
- * Pagination, so header columns are always visible
- * Sortable columns (no duplicate names allowed)
- * Use Date Picker
- * Use Select Boxes
- * Use Checkboxes
- * Search on every field
- * Export as Text, XML, JSON and PDF
- * Modern: Responsive, Bootstrap, jQuery
- * Super easy to install and integrate with your existing project
- * Manual file is included in download file

Setup Steps:

1. Set Admin Username and Password in config
2. Copy all Files to Server
3. Login and you are ready to start!

Software Requirements:

PHP 4 or later version is all you need.

Hosting Requirements:

This plugin does not make any use of any special function, so it will work in nearly every

server environment. In case of any problems with specific hosting, let us know immediately!

Support:

If you run into any problems, please feel free to let us know, we will assist you asap.

Thank you very much.
