VeryUtils Printer Logger Software is a real-time printer logging and printer jobs logging for local, network printers | 1
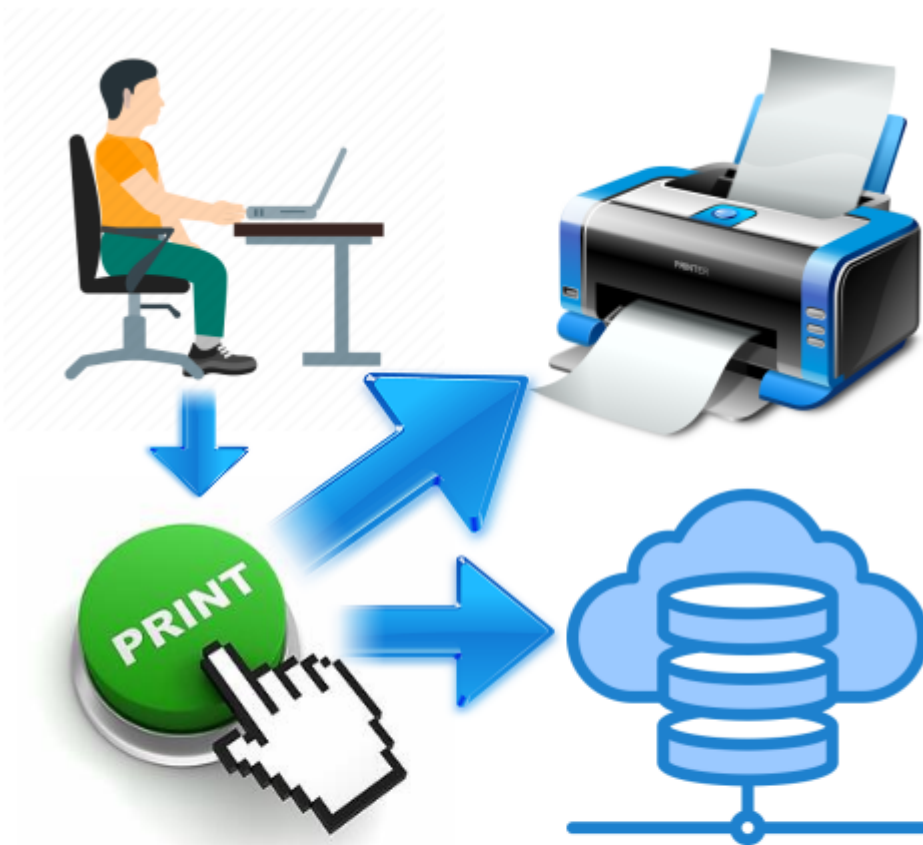

VeryUtils HookPrinter Print Logger is a powerful print logging application designed specifically for Windows systems. It provides real-time activity logs for all installed printers, including important information such as the time of print, the name of the user who printed, the total number of pages, and the names and titles of documents. In addition to these basic details, VeryUtils HookPrinter Print Logger is also able to track additional job attributes such as paper size, color mode, and more.

One of the key benefits of using VeryUtils HookPrinter Print Logger is that it allows you to

intercept and capture the details of printed documents. Simply install the software directly onto your local Windows system and it will start capturing important information such as the username, filename, size, paper size, color format, number of pages, and print contents. This data is then presented in a web-based HTML format, with the option to export to CSV for further analysis in Excel.

In addition to the core print logging functionality, VeryUtils HookPrinter Print Logger offers a range of advanced features that make it a powerful and flexible tool for tracking printing activity. For example, it is able to capture all print jobs and convert them to PDF files for review at a later date, as well as all printed SPL and SHD files. It is also able to track the department name that sent the print job, as well as the local network IP address and public internet IP address of the computer that sent the print job.

VeryUtils HookPrinter Print Logger is compatible with all major printer makes and models, and is able to work with both desktop and server versions of Microsoft Windows print queues. It is unobtrusive and does not require any modifications to the printing process or special configurations for printers. In addition, it is compatible with all Windows versions since Windows 2000, including x86 and x64 platforms.

One of the key benefits of VeryUtils HookPrinter Print Logger is its ease of use. It features a simple HTML interface that makes it easy to monitor printing activity and access log data. The software is also able to export print logs to HTML, CSV, and Excel XLS formats.

VeryUtils HookPrinter Print Logger is a powerful and reliable tool for Windows systems that allows you to track and log all printing activity on your network. This software is designed to provide real-time activity logs for all installed printers, including the time of print, the name of the user who printed, the total number of pages, document names and titles, and other job attributes such as paper size and color mode.

One of the standout features of VeryUtils HookPrinter Print Logger is its ability to capture and record detailed information about printed documents. When installed on local Windows systems, this software captures username, filename, size, paper size, color format, pages,

and print contents. The logs are available in a user-friendly HTML format, as well as in CSV or Excel format for advanced users who need the data for further analysis.

VeryUtils HookPrinter Print Logger is able to track a wide range of information, including the time of print, the name of the user who printed, the total number of pages, document names and titles, the computer name that sent the print job, the name of the printer driver, and the printer name. In addition, this software is able to capture all print jobs and convert them to PDF files for later review, as well as all printed SPL and SHD files.

Other features of VeryUtils HookPrinter Print Logger include the ability to show the last printing time for all computers in a department, list all computers in a department, and list all print jobs in a computer. This software also provides detailed information about document attributes such as color, duplex, grayscale, paper size, document area, and paper length, as well as the workstation name or IP address from which the print job originated.
