This URL shortener script is perfect for individuals and businesses looking to streamline their online presence by reducing the length of long links.

https://veryutils.com/url-shortener-without-database-php-script

Shortening URLs with VeryUtils URL Shortener is effortless. Simply paste the long URL into the designated field, click the "Shorten URL" button, and copy the shortened URL to share it on websites, chat platforms, and emails. With its built-in click counter, users can monitor the number of clicks received from their shortened URLs, making it easy to track the success of marketing campaigns and other online initiatives.

One of the unique selling points of VeryUtils URL Shortener is its versatility. Shortened URLs can be used in a variety of contexts, including advertisements, blogs, forums, and instant messages. This makes it an ideal tool for individuals and businesses looking to optimize their

online presence and reach a wider audience.

The PHP URL shortener script is packed with a range of features that make it stand out from the competition. For example, it offers geotargeting and device targeting, which allow users to tailor their campaigns to specific geographic locations or device types. The script also includes a premium membership option and a powerful dashboard and admin panel, as well as a suite of CMS tools for building a dream website.

Another benefit of VeryUtils URL Shortener is its accessibility. The script does not require a database and comes with full PHP source code, which makes it quick and easy to get up and running on your own server. The extended license also turns the script into a Software as a Service (SaaS) platform, which automatically manages payments through Stripe, PayPal, and Bank Transfer.

Finally, VeryUtils URL Shortener provides users with premium support, which includes answering any questions you may have and providing quick hints if needed. As a purchaser of the product, you are entitled to this level of support, ensuring that you have all the resources you need to get the most out of the script.

In conclusion, VeryUtils URL Shortener is a PHP URL shortener script that offers a simple, fast, and versatile way to shorten long URLs. With its built-in features, easy accessibility, and premium support, it is an excellent option for individuals and businesses looking to optimize their online presence and reach a wider audience.
